

CASA-HGT
Comité de Acción Social Autónomo/Committee for Autonomous Social Action
Hermanidad General de Trabajadores/General Brotherhood of Workers

January 26, 2026

Greetings:

We are asking you to join forces with us and endorse a 3-day nationwide consumer boycott to be held on the weekend of International Workers' Day May 1-3, 2026. **No shopping!**

The Boycott is to protest the Trump Administration's brutal Gestapo-like tactics of kidnapping, detaining, deporting and now murdering Immigrants and American Citizens alike, in violation of clearly established constitutional rights.

As workers/consumers in the US, we must take action by exercising our power to boycott to get the attention of, and to defeat, those who wish to impose authoritarian rule on us and those who profit from it.

CASA-HGT was founded by legendary labor and community leader Bert Corona and other union leaders over 50 years ago to assist and defend the millions of undocumented workers and their families who suffered similar indignities as we witness today.

In these crucial times, long-time activists of CASA-HGT (who have continued to advocate and fight for the rights of immigrant workers throughout the decades) have come together to re-establish CASA General Brotherhood of Workers to continue the struggle on behalf of all workers/consumers.

If we act together we will succeed. Your support is vital. Join and Endorse the Boycott. An Injury to One is an Injury to All!

In Solidarity,

Carlos Vellanoweth
Attorney at Law
Coordinator
